

Baltimore Washington International Airport

Date : 23/01/2005

William Nicholas Bodouva & Associates + URS Corporation integrated [PolyVision CeramicSteel](#) for interior wall cladding and column covers throughout the international terminal. The white panels offer a clean, modern and sleek design. By exempting color schemes in the design, the look appears timeless.

Partner: John H. Hampshire, Inc

Completion date: 2005

Client: Maryland Aviation Authority

Product used: [Finished Edge 1](#)

Architect: William Nicholas Bodouva & Associates + URS Corporation
